-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

#### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 11 March 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

#### Disposition of Claims

- 4) ☒ Claim(s) 1-28 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☒ Claim(s) 1-28 is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

#### Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

#### Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some \* c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
  - ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.
  - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

\* See the attached detailed Office action for a list of the certified copies not received.

### DETAILED ACTION

1. This Office Action is responsive to the following communication: Divisional Application filed on 11 March 2004.

2. Claims 1-28 are pending and present for examination. Claims 1, 5, 9, 15, 19 and 23 are independent.

#### *Specification*

3. The abstract of the disclosure is objected to because of undue length (i.e. exceeds 150 words). Correction is required. See MPEP § 608.01(b).

#### *Claim Rejections - 35 USC § 102*

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

5. **Claims 1, 3, 5, 7, 9, 11 13, 15, 17, 19, 21, 23, 25 and 27** are rejected under 35 U.S.C. 102(e) as being anticipated by Levy (U.S. Patent No. 5,995,961, hereinafter referred to as LEVY), filed on 7 November 1996, and issued on 30 November 1999.

6. **As per independent claim 1, 5, 9, 11, 15, 17, 19, 23 and 25**, LEVY teaches:

A method of initiating a connection via a network for a streaming data item between a client for the streaming data item and a streaming data item server for the streaming data item, the client and the streaming data item server being accessible to each other via the network and the method comprising the steps performed in a search server that is accessible to the client and the streaming server via the network of {See RODRIGUEZ, [0025], wherein this reads over "[t]he host of the Web site provides streaming data to the searcher's page which is presented in the window"}:

Art Unit: 2161

receiving a specification of the streaming data item from the client via the network {See LEVY, C4:L25-34, wherein this reads over "the user formulates a query"};

using the specification to make a query on a database system that is accessible to the search server, the query returning a first identifier that identifies the streaming data item {See LEVY, C4:L25-34, wherein this reads over "[g]iven a query, Plan Generator accesses source descriptions in which the contents and capabilities of the available information sources are available"}; and

providing the first identifier and a second identifier to the streaming data item server, the second identifier identifying the client and the first identifier and the second identifier being usable by the streaming data item server to establish the connection {See LEVY, C4:L25-34, wherein this reads over "[b]ased on the descriptions, Plan Generator determines which information sources are relevant for the given query"}.

Furthermore, it would be inherent to include a second identifier identifying the client in a search engine system since it would be necessary identify the client to which the search results are returned.

7. **As per dependent claims 3, 7, 13, 21 and 27, LEVY teaches:**

The method of initiating a connection set forth in claim 1 wherein:

the database system is an object relational database system {See LEVY, Figure 1, Element 140} that includes a table containing an object that represents the streaming data item, an open method for the object is defined in the database system, the open method returning the first identifier {See LEVY, C4:L25-34, wherein this reads over "[g]iven a query, Plan Generator accesses source descriptions in which the contents and capabilities of the available information sources are available"}; and

the database system responds to the query by executing the open method and returning the first identifier {See LEVY, C4:L25-34, wherein this reads over "[g]iven a query, Plan Generator accesses source descriptions in which the contents and capabilities of the available information sources are available" and "[b]ased on the descriptions, Plan Generator determines which information sources are relevant for the given query"}.

Furthermore, it would be inherent to the claimed invention that an object relational database system would include a table of objects.

***Claim Rejections - 35 USC § 103***

8. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a

Art Unit: 2161

person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

9. **Claims 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26 and 28** are rejected under 35 U.S.C.

103(a) as being unpatentable over LEVY, in view of Official Notice.

10. **As per dependent claims 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26 and 28**, LEVY, in combination with Official Notice, discloses:

The method of initiating a connection set forth in claim 1 wherein:

the client, the streaming data item server, and the search server communicate via the network using the HTTP protocol {See RODRIGUEZ, [0002], wherein this reads over "Web pages or domain addresses on the Internet or on any other public or private global computer network"};

the first identifier is a URL for the streaming data item {See RODRIGUEZ, [0042], wherein this reads over "[t]he search system is an application that allows users to enter predetermined search keywords and provides a list of results containing site information and media elements pertaining to each Web site"}; and

the second identifier is a current IP address for the client.

It would have been obvious to one of ordinary skill in the art at the time the invention was created to have an identifier be an IP address for the client since the IP/network address is necessary in the return of the search results.

### ***Conclusion***

11. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Kim whose telephone number is (571) 272-2737. The examiner can normally be reached on M-F, 9am - 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christian Chase can be reached on (571) 272-4190. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
